## **Congratulations to the selected schools!**

A formal letter and program information will be mailed to all selected schools the week of May 19, 2008.

Thank you to all of the schools that applied. We had over 60 applicants and were pleased to see so many schools interested in the program. Although not every school will be able to receive program funds to purchase fresh fruits and vegetables this coming school year, we are hopeful that schools not selected can begin making changes and offering more fresh fruits and vegetables throughout the school day.
